FIG. S2. A-C. Three-dimensional scatter plot of the multidimensional scaling performed with the complete data set of qualitative data. A. D1-D2-D3. B. D1-D2-D4. C. D1-D3-D4. Black (R), ROS populations of *S. rosmarinifolia* subsp. *rosmarinifolia*; pale blue (B), *S. rosmarinifolia* subsp. *arrabidensis*; violet (H), HET populations of *S. rosmarinifolia* subsp. *rosmarinifolia*; red (C), *S. canescens*; dark blue (S), *S. semidentata* subsp. *semidentata*; yellow (M), *S. semidentata* subsp. *melidensis*; orange (I), *S. impressa*; grey (A), *S. ageratifolia*; olive green (P), diploid cytotype of *S. pectinata*; brown (T), tetraploid cytotype of *S. pectinata*; pale green (O), *S. oblongifolia*; dark green (L), hybrid complex between *S. rosmarinifolia* subsp. *rosmarinifolia*, *S. oblongifolia* and their putative hybrids.
